PROJECTS

The Tenzi Dice Game, A web application using ReactJS

React, CSS, Git [october 2022]

- Ten dice rolls on a button provided as 'Roll' and each of the Die will freeze its number when clicking on the dice.
- Game ends when all the frozen dice shows a same number, and New Game option shows up.
- Live website : <https://adershgr-tenzi-game.netlify.app/>

Taste - A food delivery app, A web application using ReactJS

ReactJS, Router [Feb 2023]

- A website with menu items and add to cart option like a food delivery application
- website : <https://adershgr-food-delivery.netlify.app/>

A Personal portfolio website using ReactJS

ReactJS, CSS, Git [Jan 2023]

- A website that contains all the details about me created using ReactJS
- A floating Navbar and working email-contact-form are the highlights of this website
- website: <https://adershgr.netlify.app/>

WORK EXPERIENCE

Equidefi - A Private Investing platform

[September-December 2022]

Equidefi is a private investing platform with 2 portals, Issuer Portal and Investors Portal. The App is built in ReactJS with bootstrap framework as CSS. I worked as a frontend developer in this project and helped them create new features and user friendly updates.

website : <https://www.equidefi.com/>

Phox Health - Medicine delivery platform

[November 2022]

Phox Health is a medicine and lab reports delivery web application with supply chain operating in USA. I worked as a frontend developer in this project to help create new web pages in the app.

website : <https://www.phoxhealth.com/>
